- a) the written acceptance by the Customer of the Settlement Yield Statement issued by PBL;
or
- b) within 10 days of the Settlement Yield Statement if no response is received from the customer.

9.2 In respect of Material for which Service D is provided to the Customer by PBL, the Customer retains title at all times and ownership is never transferred to PBL.

9.3 The Customer will continue to retain ownership, risk and responsibility of Material for which Acceptance is not given by PBL.

10. PRICE

10.1 In the case of Service A, the price for purchase of Materials by PBL from the Customer shall be agreed in writing prior to Acceptance.

10.2 In the case of Service B or Service C, the monetary or metal return associated with the Product will be determined, following acceptance, processing, and analysis, by PBL methodology (the "**Settlement Yield**").

10.3 In the case of Service D, the customer pays PBL a toll processing charge for the Material, which must be agreed before Acceptance.

10.4 PBL methodology employs a variety of factors in determining the Settlement Yield including, among others, the character and historic quality of the Customer's Materials, PBL designated laboratories' analysis and the uncertainties thereof, Customer's estimate or projection of precious metal content in the Materials, the estimated yield on final recovery, PBL risks and costs, and PBL refining practices and processes.

10.5 When the Customer is not represented, PBL will notify the Customer of the Settlement Yield either verbally or in writing in a Settlement Yield Statement and such amount will be final and conclusive unless objected to in writing by the Customer within seven days ("**Notice of Objection**").

10.6 If the Customer serves Notice of Objection on PBL in accordance with condition 10.5 above, any adjustment to the Settlement Yield will be negotiated between PBL and the Customer both acting in good faith. If agreement cannot be reached by negotiation within 2 weeks of PBL receiving Notice of Objection and if the Product is in a suitable form, the Customer and PBL will endeavour to agree on the appointment of an independent umpire to inspect the Product ("**Independent Inspection**").

10.7 In the case of discrepancy between the Settlement Yield and the findings of the Independent Inspection, the Settlement Yield shall be adjusted, upwards or downwards as the case may be, by the median of the Settlement Yield and the Independent Inspection.

10.8 In the case of Service B, the price to be paid by PBL to the Customer for the Product will be based on prevailing London bullion or free-market prices, whichever is applicable, for the Settlement Yield.

11.9 In the case of Service C, and subject to condition 11.5 below, PBL will return to the Customer, at the Customer's risk and expense, precious metals equivalent in the quantity and proportion determined by the Settlement Yield.

11. PAYMENT AND INVOICING

11.1 Following notification of the Settlement Yield, or following the adjustment of the Settlement Yield in accordance with conditions 10.6 and 10.7 above, PBL will issue an invoice to the Customer stating a time for payment, PBL's fees, and any charges, costs and disbursements incurred by PBL in connection with the Services ("**Invoice**").

11.2 In the case of Service B, a statement will be provided with the Invoice which will state the value of the Settlement Yield such value to be based on prevailing London bullion or free-market prices, whichever is applicable, payable by PBL to the Customer for the Product.

11.3 In the case of Service C, a statement will be provided with the Invoice which will provide a breakdown of the Settlement Yield by weight and type of metal to be returned to the Customer.

11.4 Unless otherwise agreed in writing, in the case of Service B, PBL shall be entitled to set-off its fees and costs as stated in the Invoice against the value of the Settlement Yield set out in the statement referred to in 11.2 above.

11.5 Where PBL is providing Service B or C and metals to the amount of the Settlement Yield are to be provided to the Customer, PBL shall have a lien over the Product until any sums owing to PBL by the Customer have been met in full. Should an Invoice not be met in full within two months of the date specified in the Invoice for payment, PBL shall be entitled to sell the Product and apply the proceeds to any unpaid portion of an Invoice and PBL's reasonable costs of storing the Product and arranging for its sale.

11.6. PBL will use reasonable efforts to meet the Settlement Date however these are estimates only and time in this respect and time for delivery are not of the essence.

11.7 In the case of Service D, PBL shall invoice the Customer the agreed toll processing charges for the Material

11.8 The Customer shall make all payments due under the Contract in full without any deduction whether by way of set-off, counterclaim, discount, abatement or otherwise.

11.9 If the Customer fails to pay PBL any sum due pursuant to the Contract, the Customer shall be liable to pay interest to PBL on such sum from the due date for payment at the annual rate of 4% above the base lending rate from time to time of Lloyds Bank plc, accruing on a daily basis until payment is made, whether before or after any judgment. PBL reserves the right to claim interest under the Late Payment of Commercial Debts (Interest) Act 1998.

11.10 PBL reserves the right to offset any payables due from PBL against outstanding debt the Customer owes to PBL.

- (b) PBL shall not be liable to the Customer for loss of profit, loss of business, or depletion of goodwill in each case whether direct, indirect or consequential, or any claims for consequential compensation whatsoever (howsoever caused) which arise out of or in connection with the Contract.

14. FORCE MAJEURE

15.7 Any waiver by PBL of any breach of, or any default under, any provision of the Contract by the Customer shall not be deemed a waiver of any subsequent breach or default and shall in no way affect the other terms of the Contract.
